THE COORDINATION APP FOR HOUSEHOLDS WITH CAREGIVERS

Everyone who cares for your children, on the same page.

One app for you, your co-parent, your nanny, your driver and the grandparents. Each of you sees exactly what your role needs.

AVAILABLE ON THE App Store

YOUR NANNY SEES

TODAY'S SHIFT — OFF DUTY

Start 6:30 AM | End 8:30 PM | Status Off duty

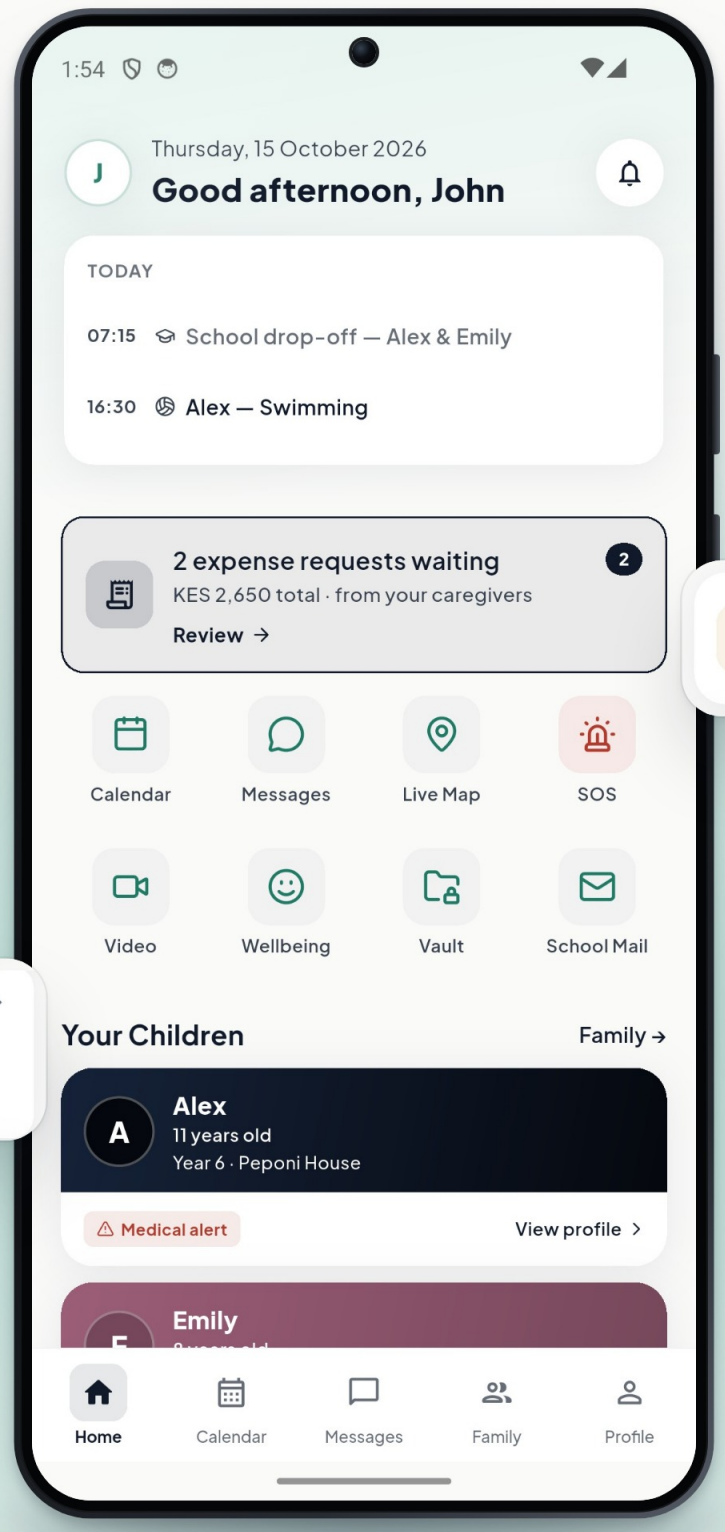

Clock in

YOUR DRIVER SEES

~~Morning school run — drop Alex & Emily at Peponi~~

Leave by 6:45; gate closes 7:40.

Due 26/6 · 07:00

AT EVERY HANDOVER

New handover from Tom

Picked Alex up from Peponi at 3:35 — slight delay because of the basketball ...

EVERY CAREGIVER HAS

Emergency SOS

Built in Nairobi for families everywhere. Parity is for the adults who care for a child. There are no child accounts.

Six adults.
One child.
One shared truth.

THE NANNY

has instructions on a sticky note.

THE DRIVER

has a WhatsApp message from last week.

GRANDMA

has a phone call.

THE SCHOOL

sent a circular that one parent saw.

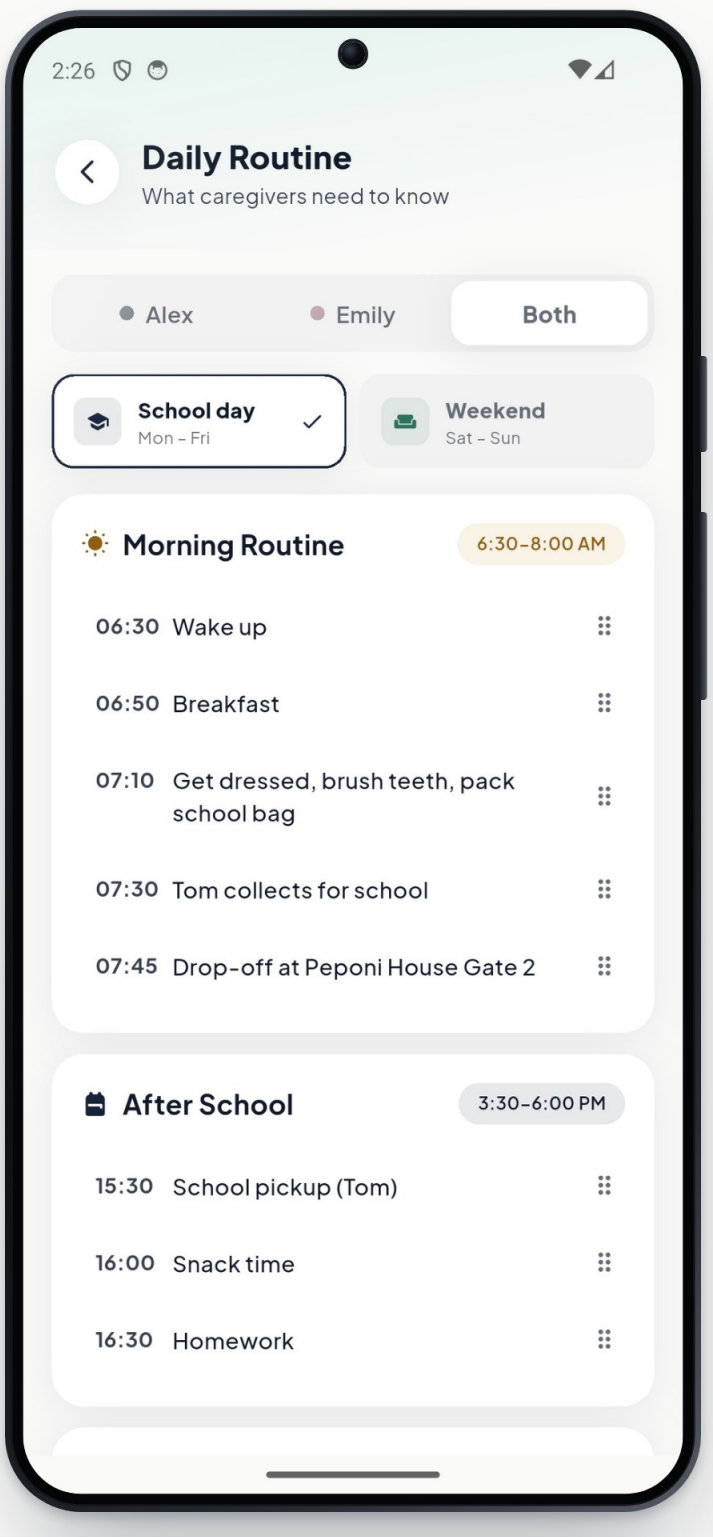

Parity replaces that patchwork with one shared household. This catalogue shows you all of it, screen by screen.

A DAY WITH PARITY

01 One school day in the Doe household.

John and Jane are the parents of Alex, 11, and Emily, 8. Anna is their live-in caregiver. Tom is their driver. Follow the day through the screens each of them opens.

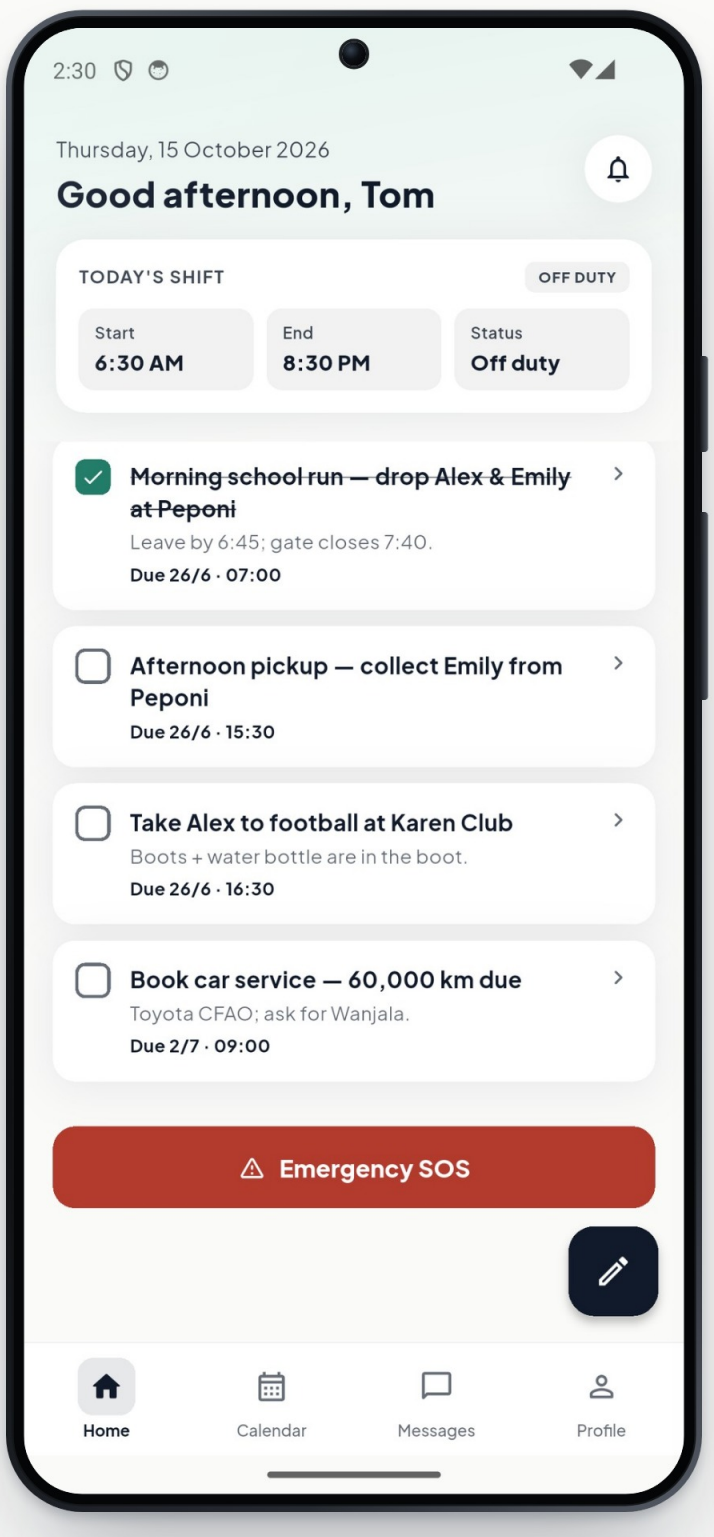

06:30

The morning routine

The school-day routine, step by step: wake up at 06:30, breakfast, school bag, Tom collects at 07:30, drop-off at 07:45.

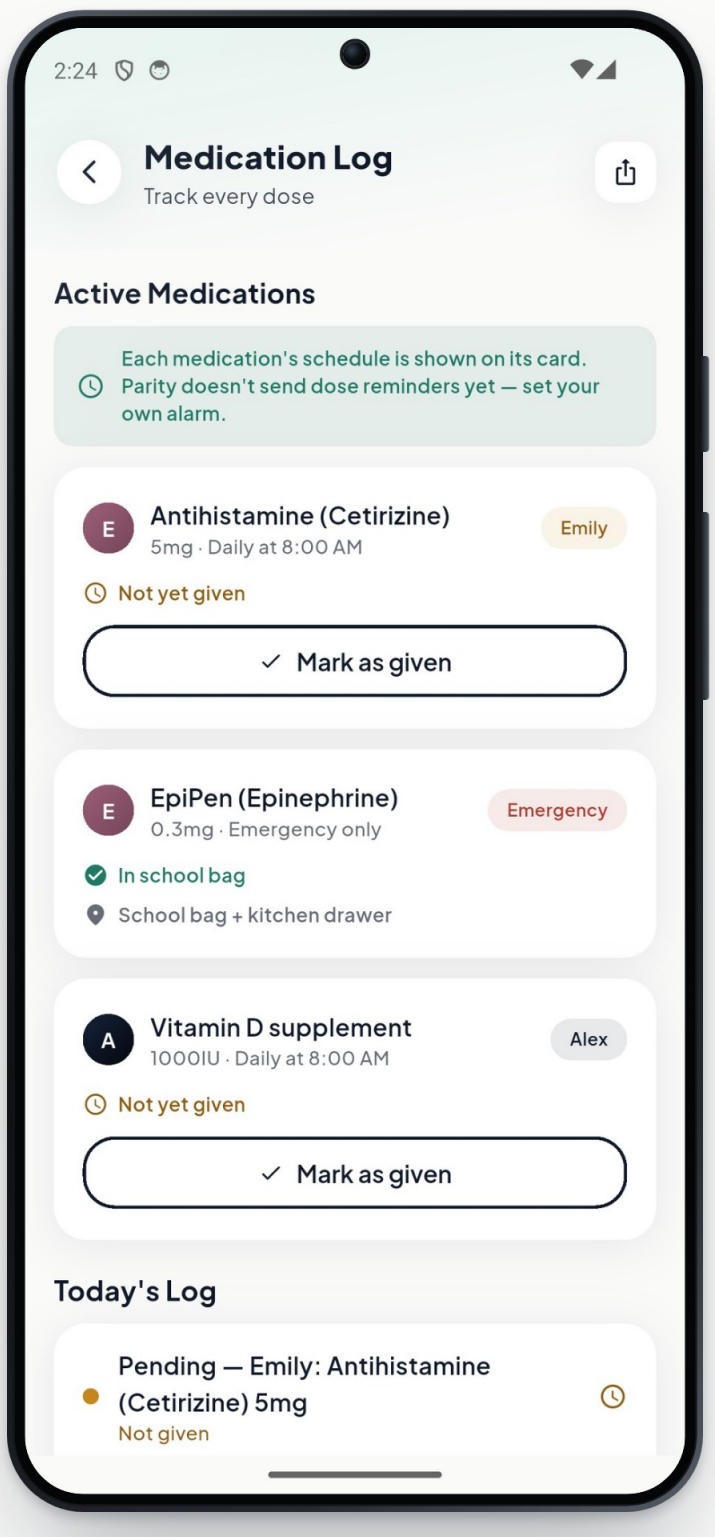

School run

Tom's tasks

The morning school run is ticked off, with the afternoon pick-up next. Emergency SOS sits below.

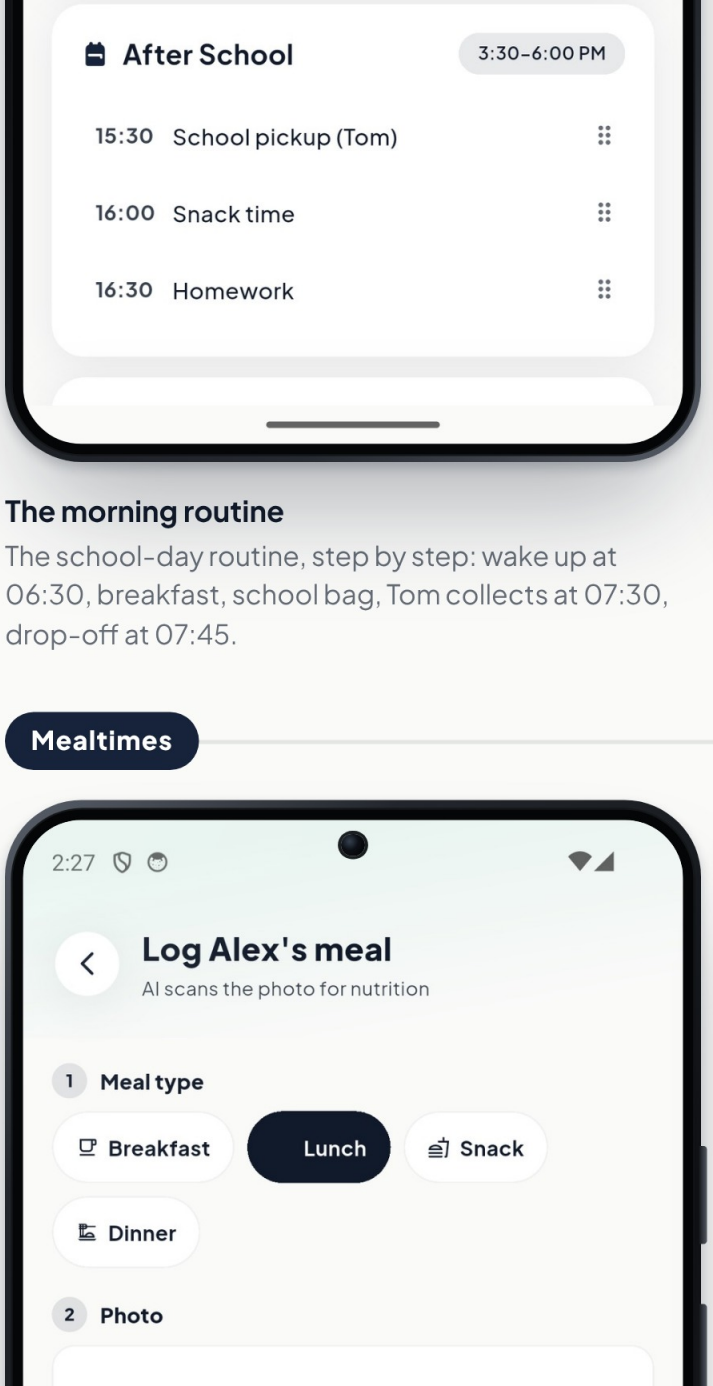

08:00

Medicines

Emily's antihistamine is due at 8:00 AM. One tap on "Mark as given" puts the dose in today's log.

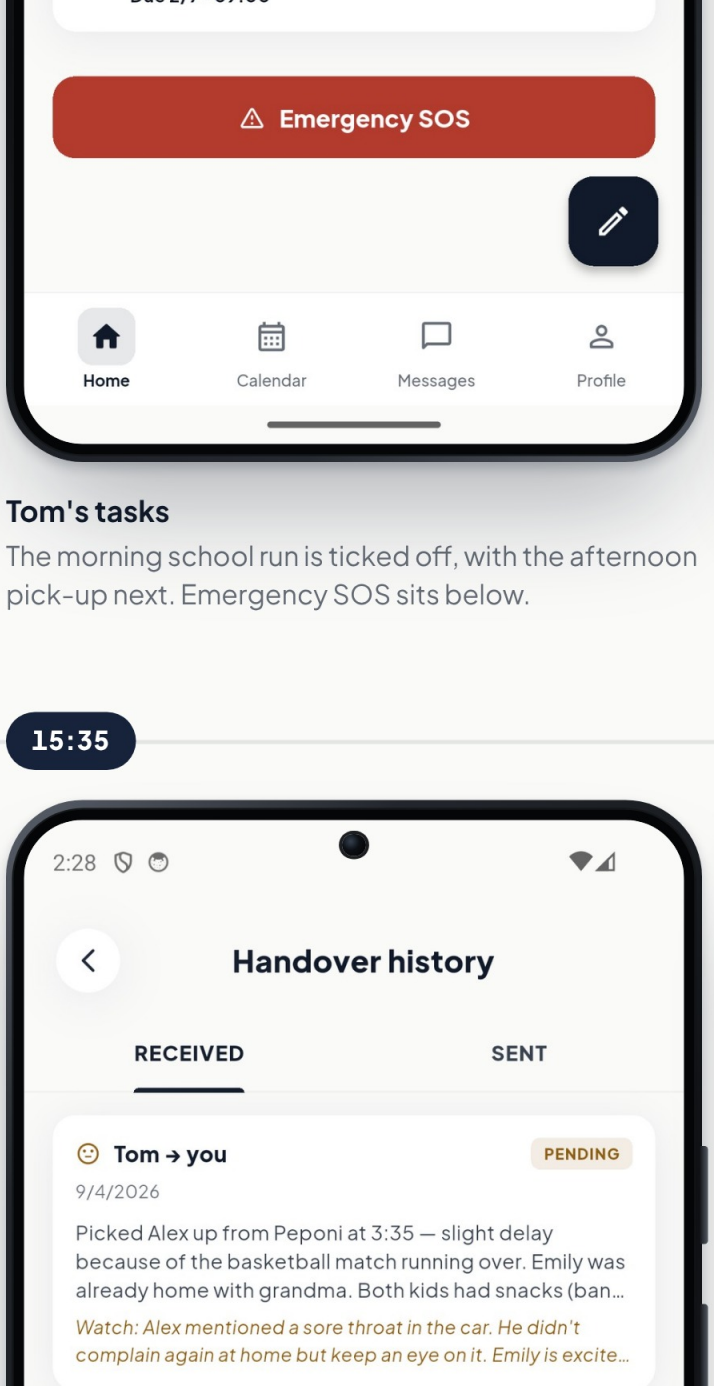

Mealtimes

Meals

Meal type, an optional photo, and how well Alex ate.

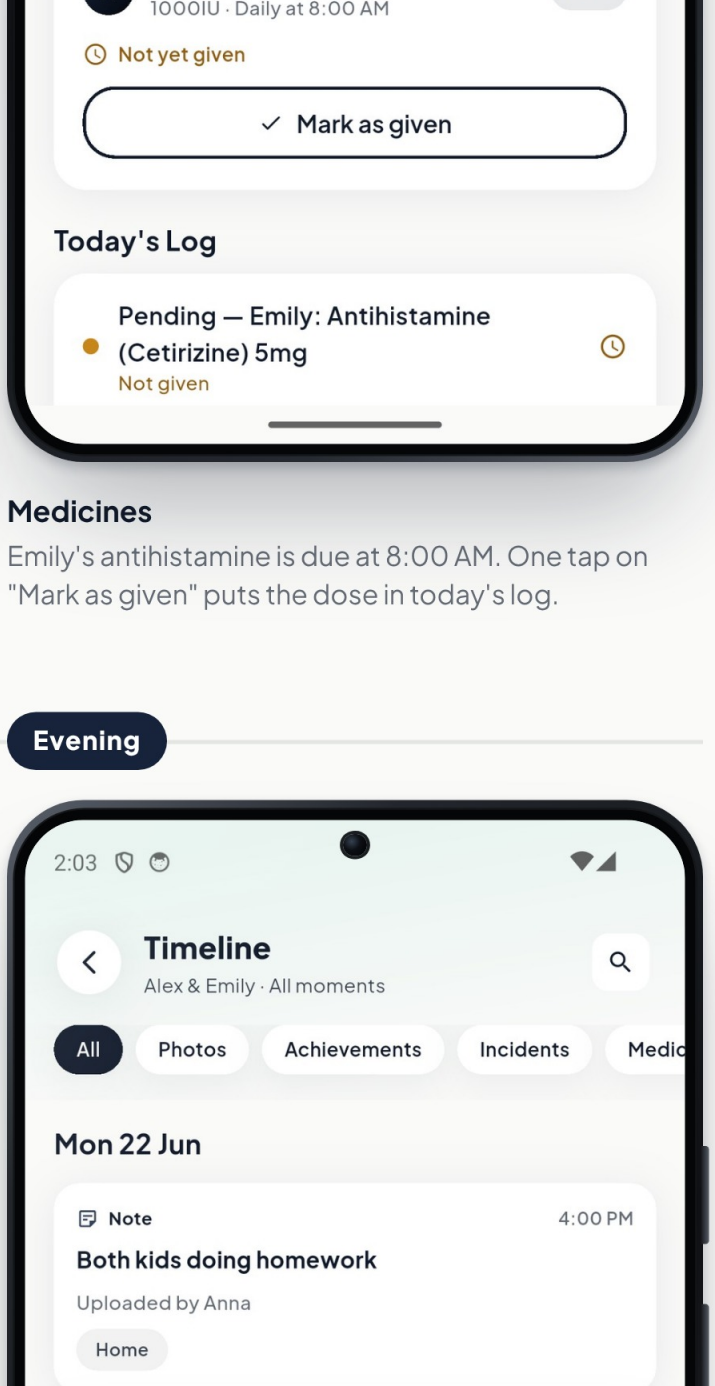

15:35

The handover

Tom's note to Anna: Alex was picked up at 3:35 after a slight delay, snacks eaten, and one thing to watch.

Evening

The timeline

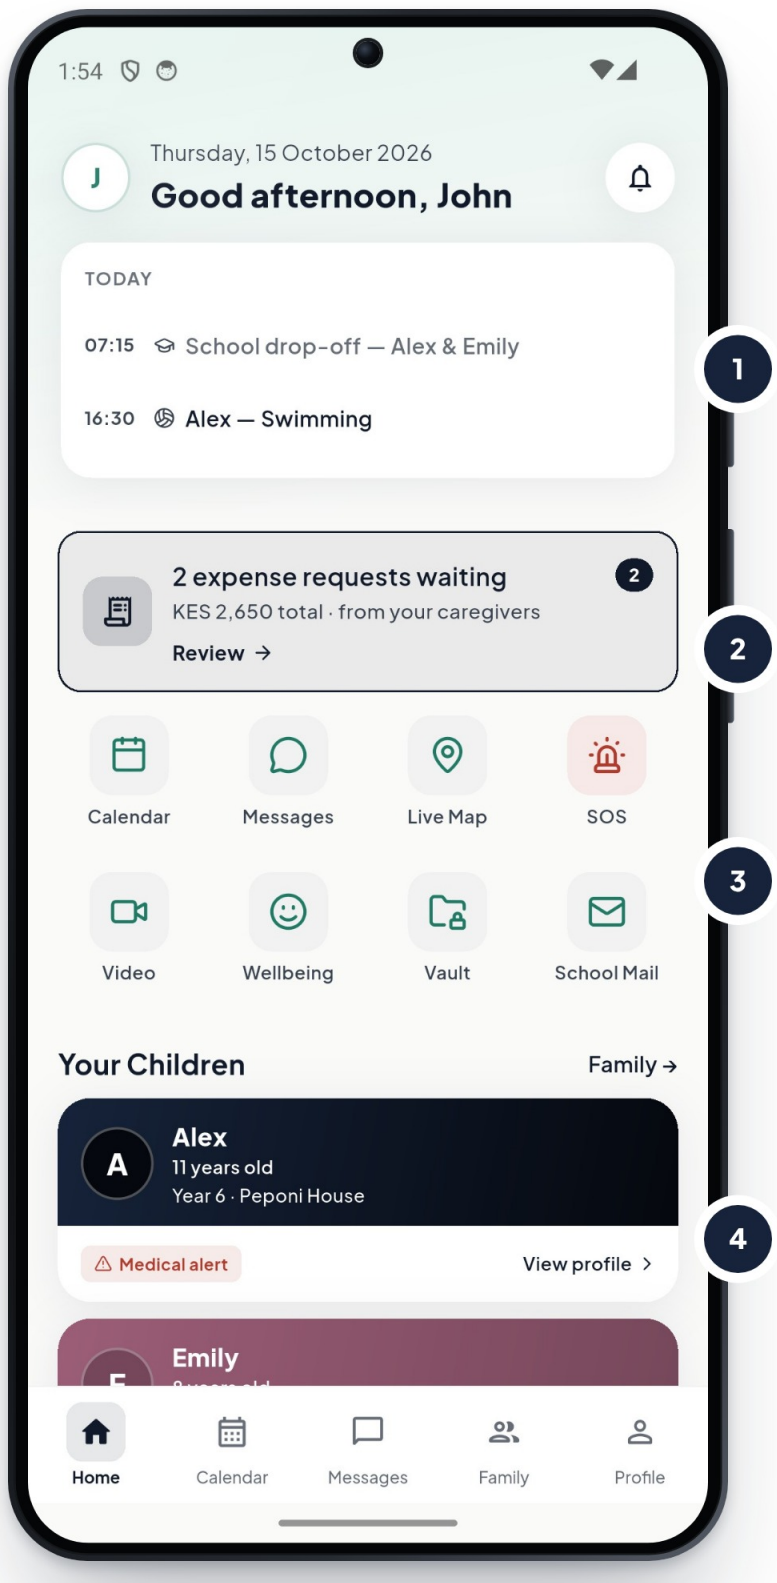

Notes, photos, achievements and incidents for Alex and Emily, by date.

The Doe household is a demonstration family. Every screen in this catalogue is a capture from the Parity app.

FOR PARENTS

02 Your whole household on one home screen.

Open Parity and the day is already laid out. You stop asking "did you…?" because the answer is in front of you.

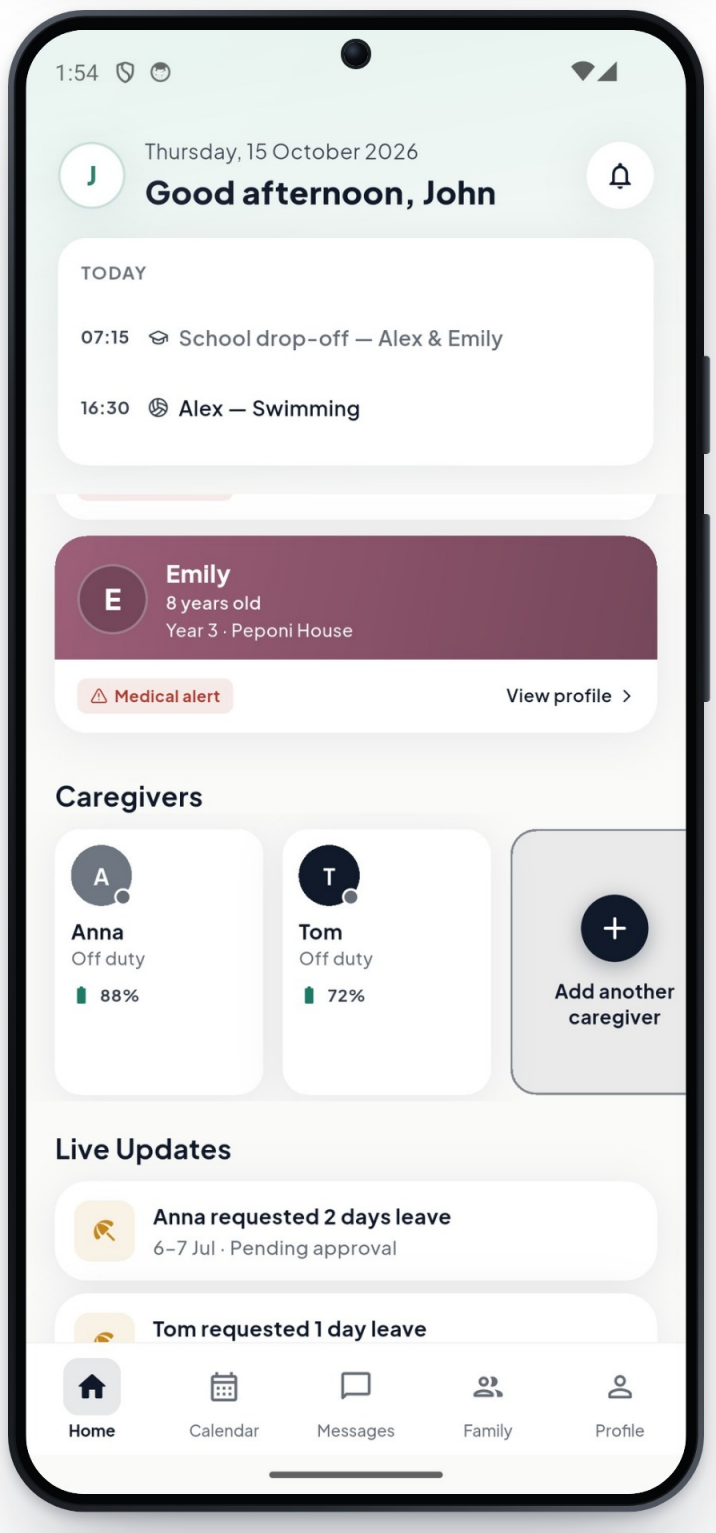

1 **Today, first**
The day's schedule for every child, before anything else.

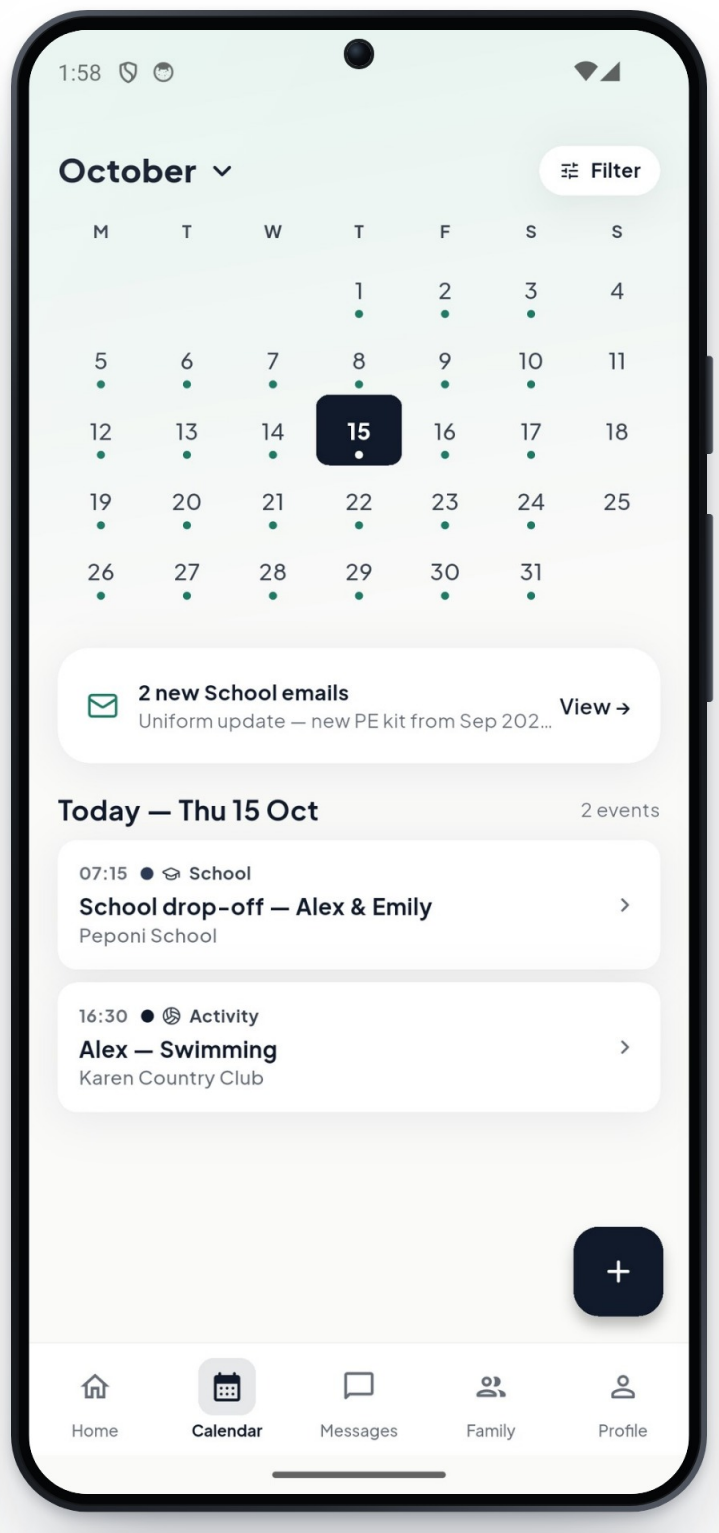

2 **What needs you**
Expense requests from your caregivers wait here for your review.

3 **Everything, one tap away**
Calendar, Messages, Live Map, SOS, Video, Wellbeing, Vault and School Mail.

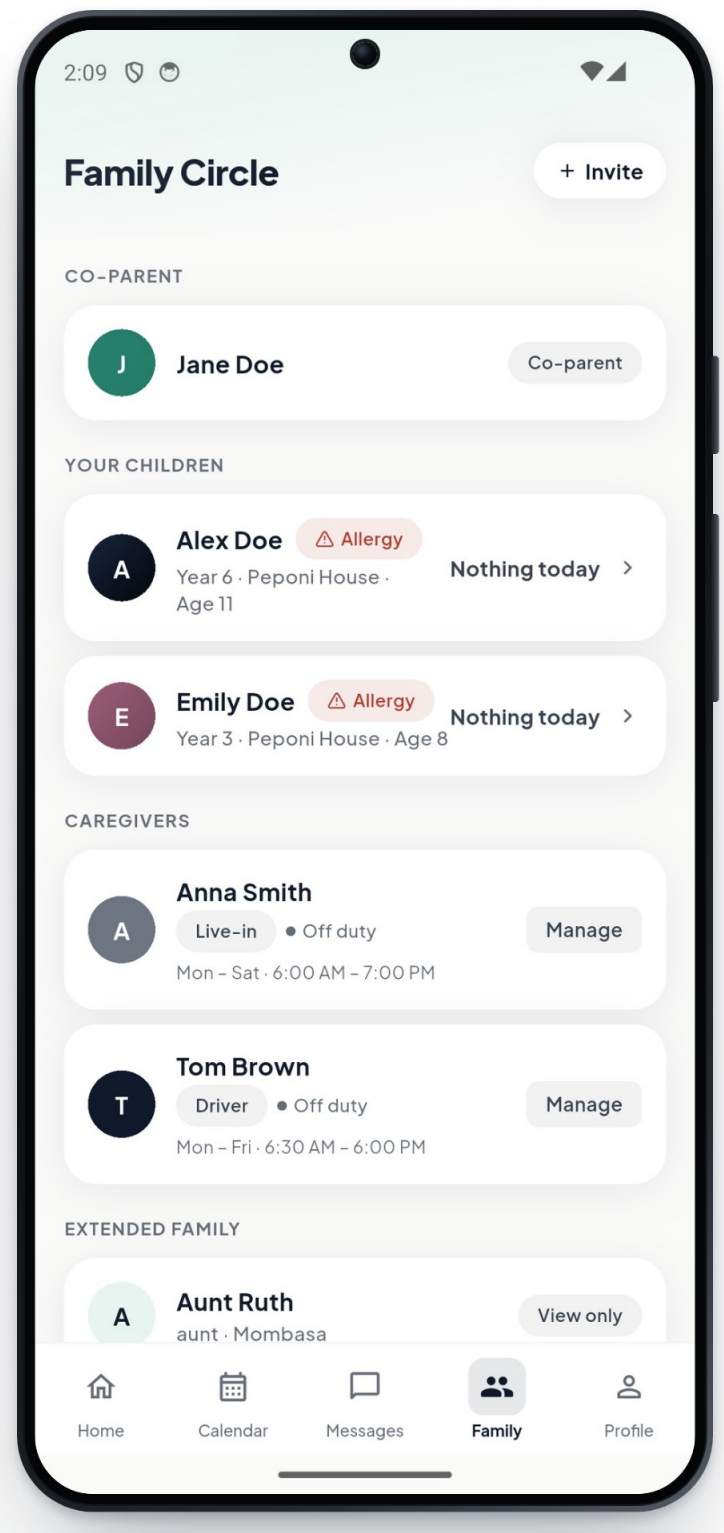

4 **Your children**
Each child's profile, with medical alerts you cannot miss.

Caregivers and live updates
Who is on or off duty, and leave requests as they arrive.

Calendar
The month, today's school run and activities, and new school emails surfaced.

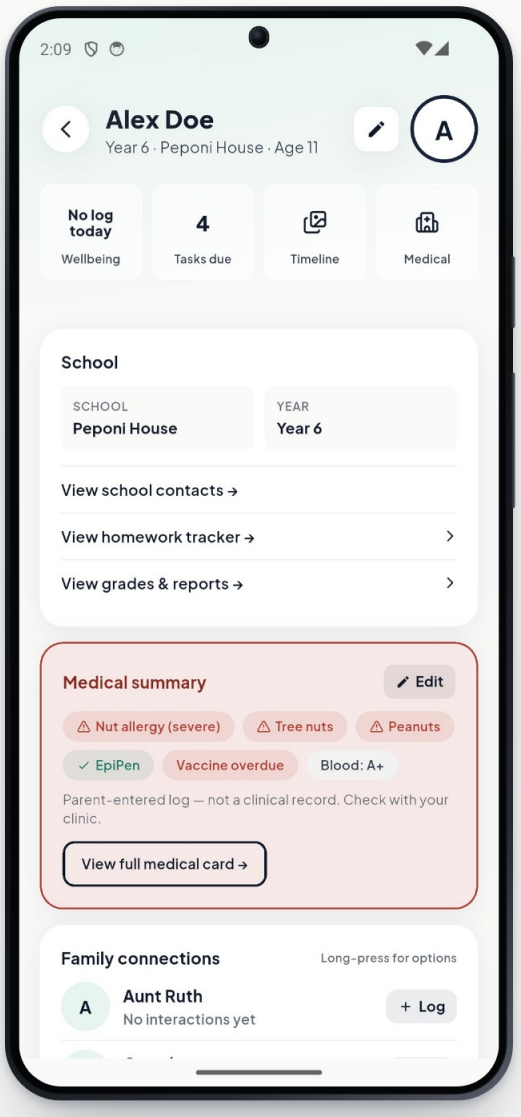

Family Circle
Co-parent, children, caregivers and extended family, each with their role.

CHILDREN'S PROFILES AND WELLBEING

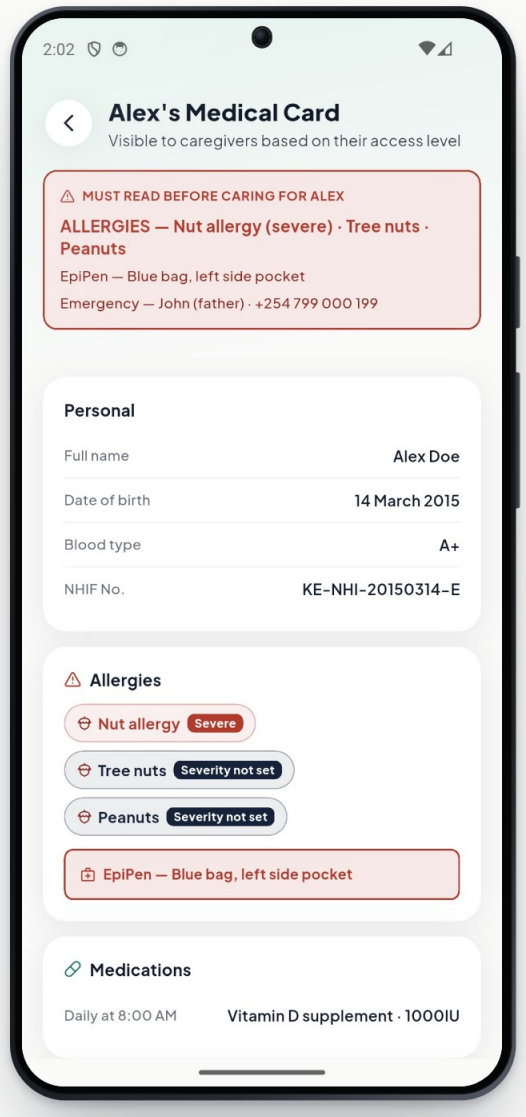

03 What every adult must know about your child.

You enter it once. Each caregiver sees what their access allows, starting with what cannot be missed: allergies, medicines and who to call.

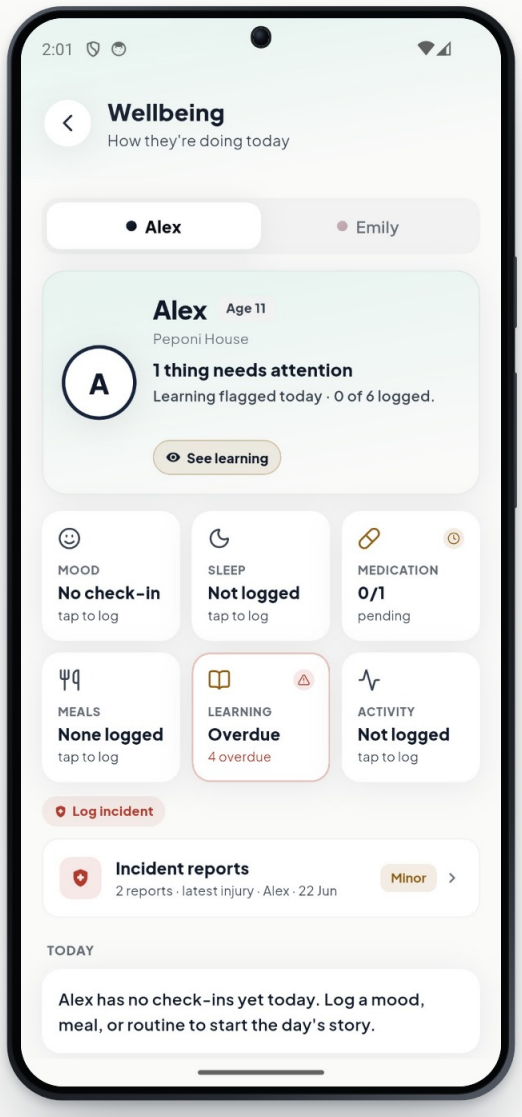

Child profile

School, tasks due, timeline and a medical summary on one screen.

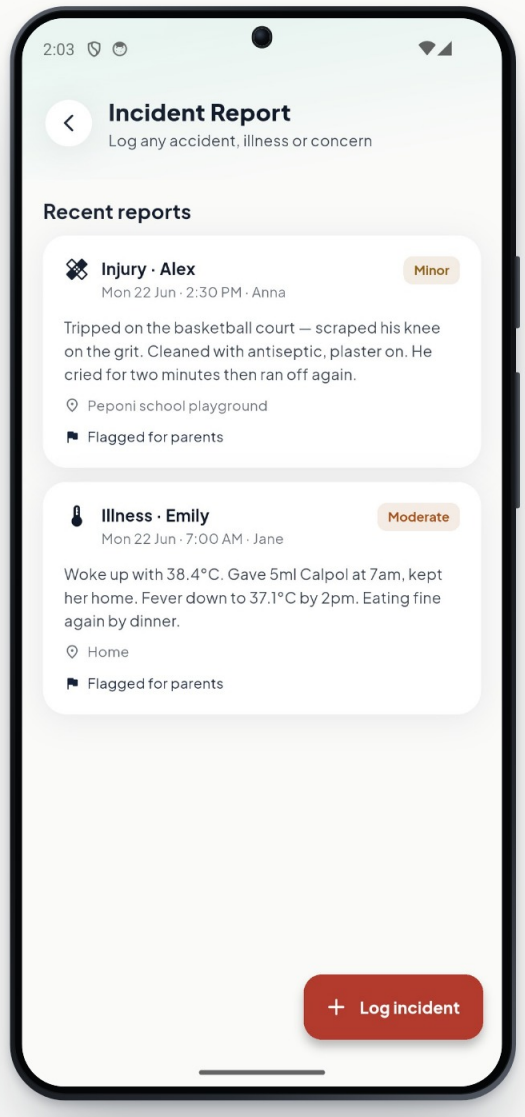

Medical card

"Must read before caring for Alex": allergies, where the EpiPen is, the emergency contact.

Wellbeing

Mood, sleep, medication, meals, learning and activity, per child, per day.

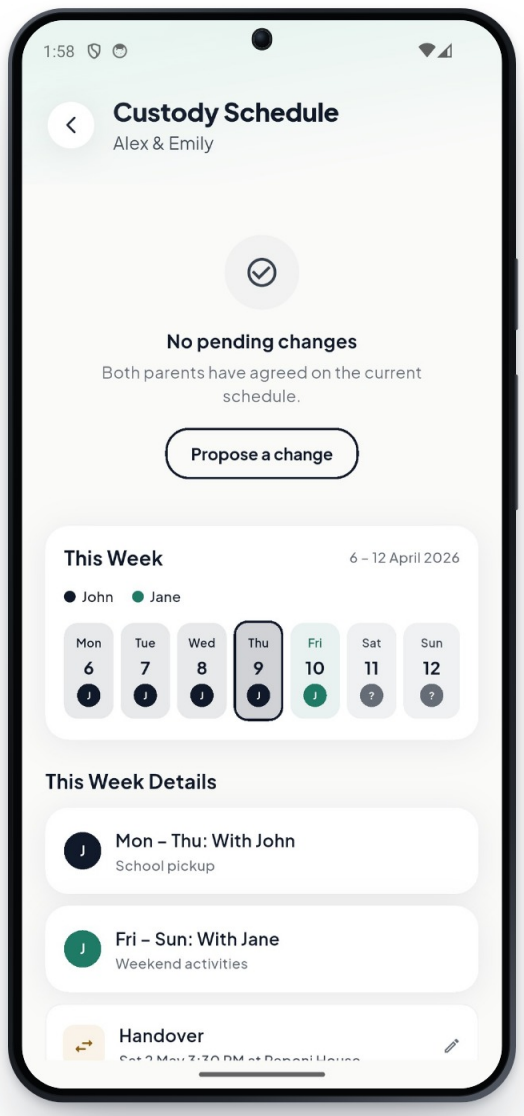

Incident reports

Injury and illness, logged by the adult who was there and flagged for parents.

FOR CO-PARENTS

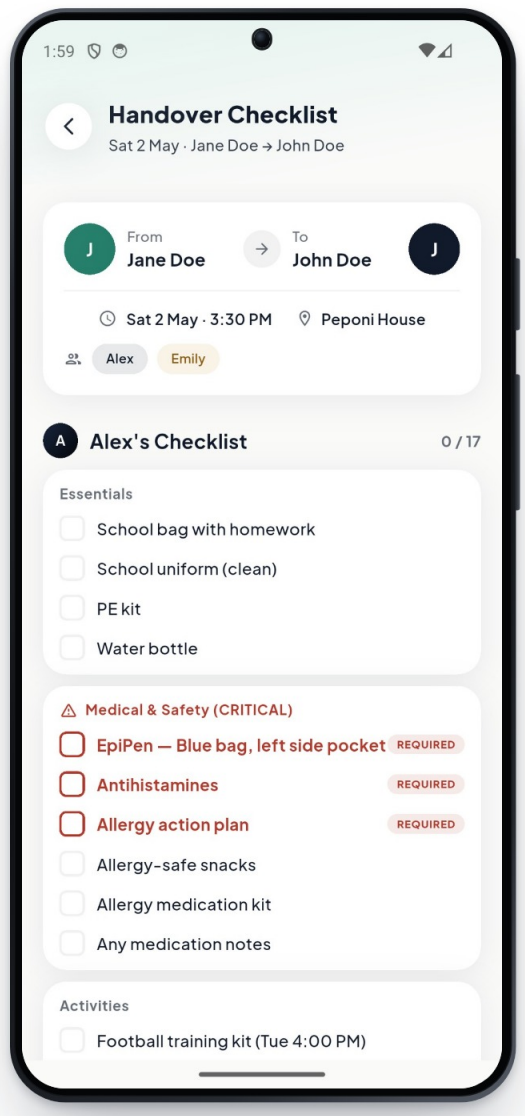

04 Custody that needs both of you. Records that hold up.

Two parents, one or two homes, equal standing. You agree the schedule together, every handover has a checklist, and a handover counts only when both sides have recorded it.

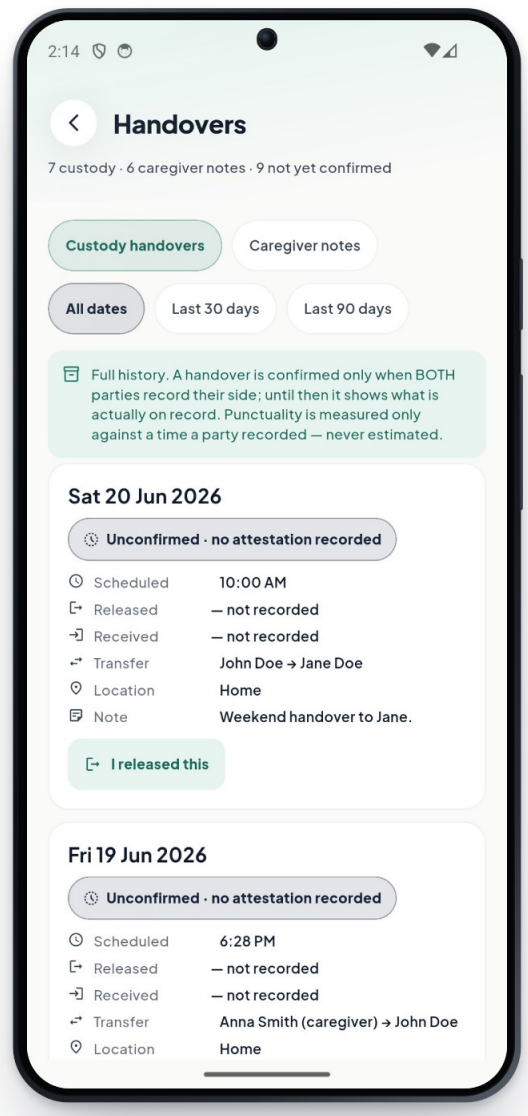

Custody schedule

The week by parent: Monday to Thursday with John, Friday to Sunday with Jane. Either of you can propose a change.

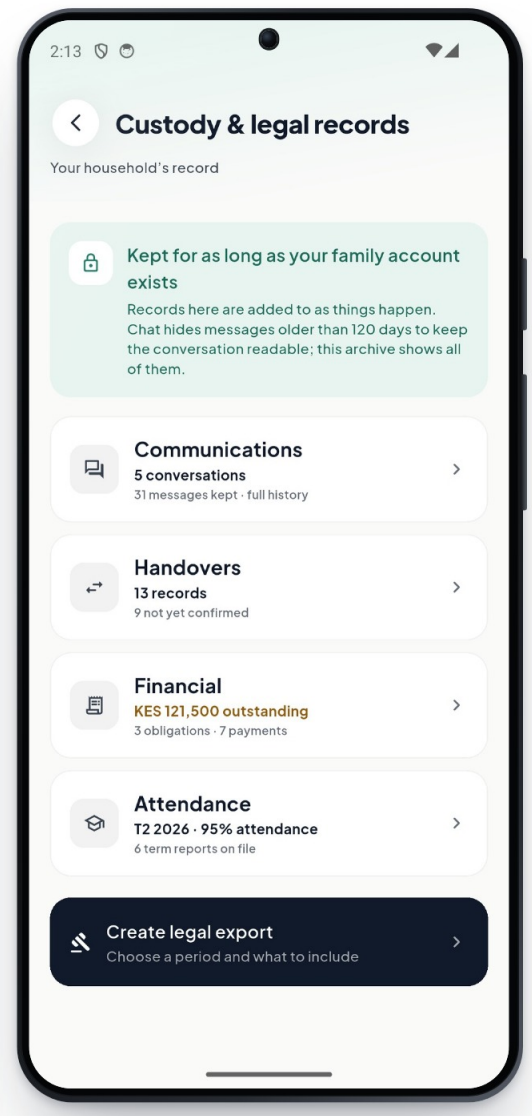

Handover checklist

What travels with each child, with medical items marked as required.

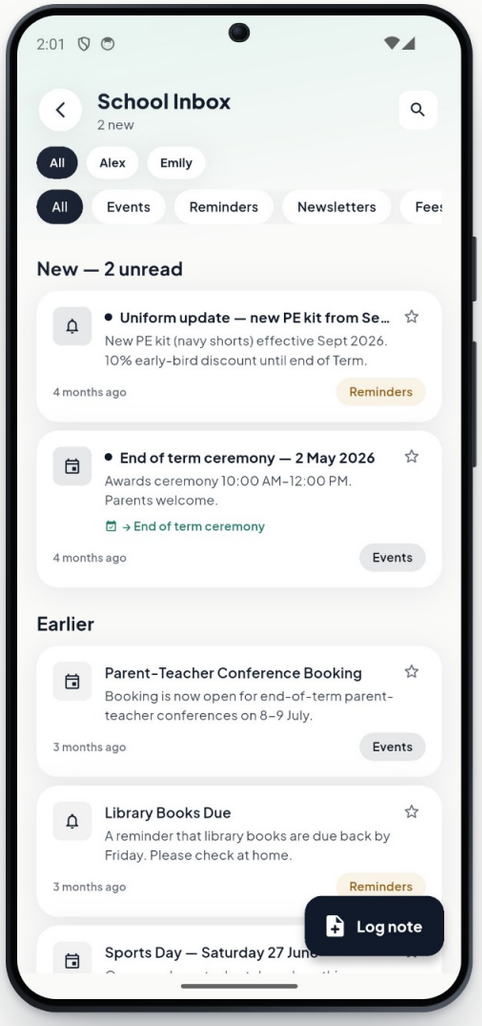

Handover records

A handover is confirmed only when both parties record their side. Times are never estimated.

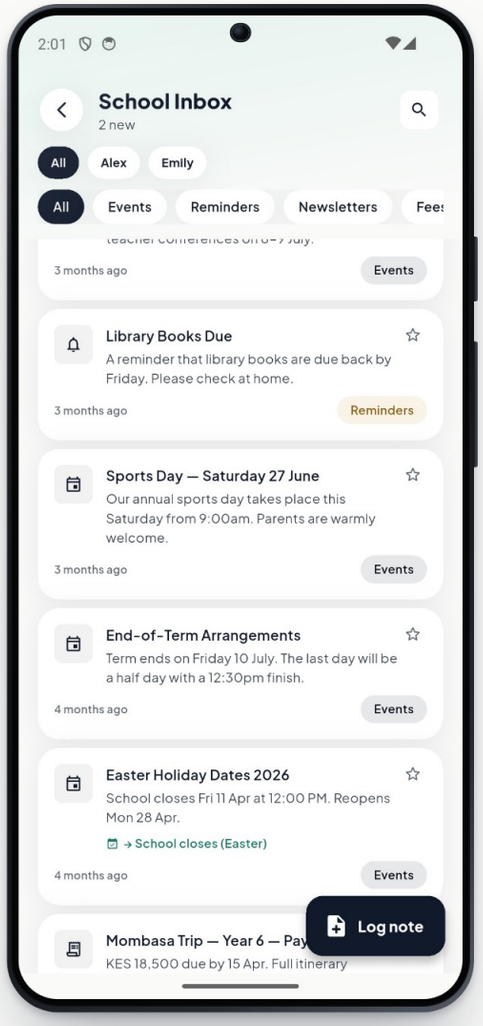

Custody and legal records

Communications, handovers, finances and attendance, with a legal export.

School Inbox

New items first, each tagged by type.

Dates pulled out

Events and closing dates appear as links under each email.

SCHOOL MAIL

05 Never miss a circular again.

The school writes to you. But it is your driver who needs the early-closure notice, and Grandma who wants the concert date.

- **Capture** school emails and letters into your household.
- **Sorted for you** into events, reminders, newsletters and fees, per child.
- **Route** each item to the adults who need it.
- **60-day retention,** then automatic deletion.

On the free Essential plan, School mail is paused (read-only).

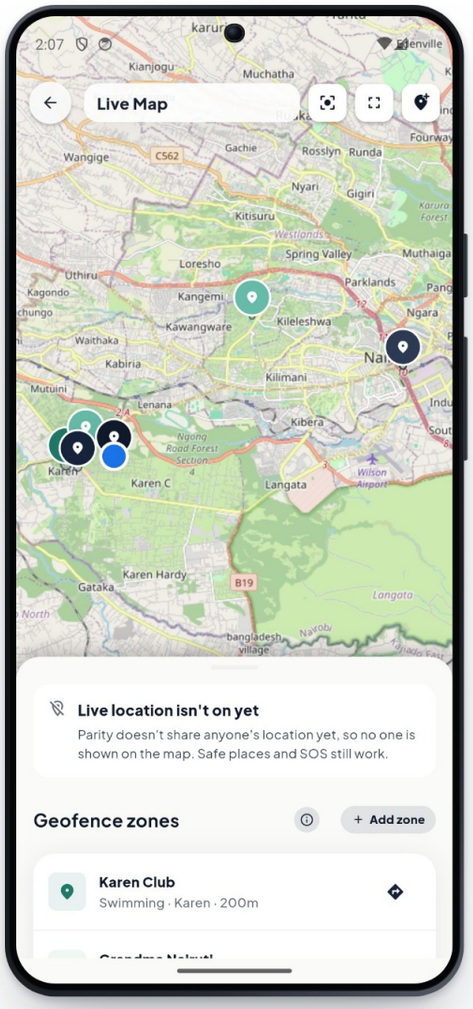

LIVE MAP AND CHECK-INS

06 Know where the car is. During duty hours only.

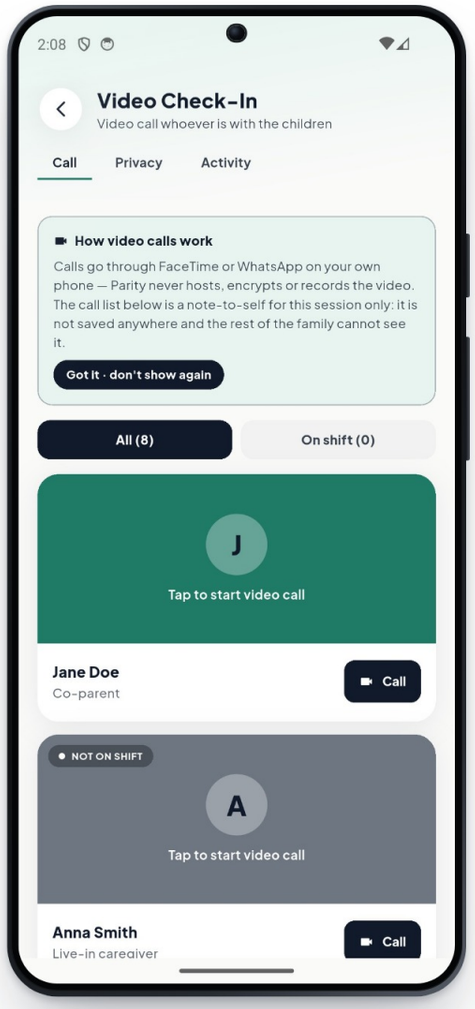

You see your driver and caregivers on the map while they are on duty, and not outside it. School, the club and home are saved as safe places.

- **On-duty location** for drivers and caregivers, on Mapbox maps.
- **You control it.** Sharing is tied to duty hours and switched off outside them.
- **Kept for 7 days, then deleted.**
- **Honest when it is off.** If nobody is sharing, the screen says so.

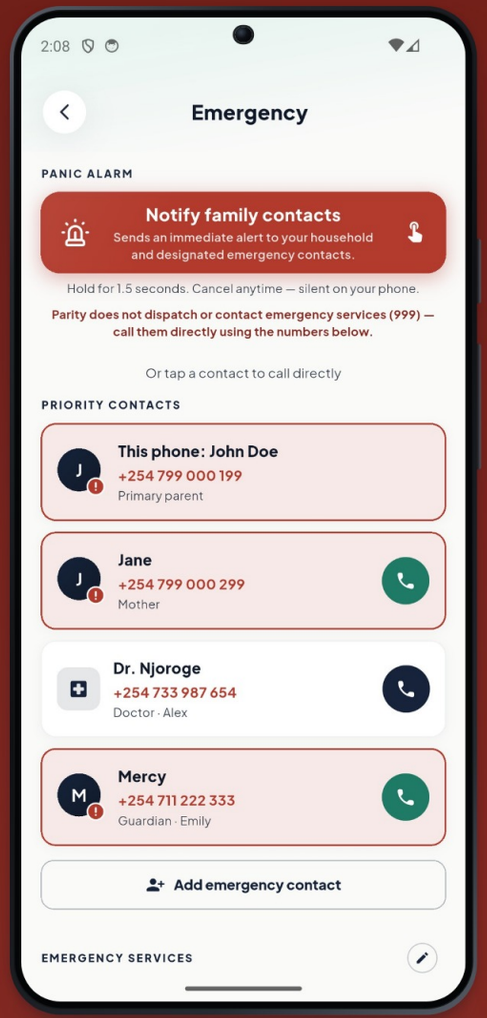

On the free Essential plan, Live Map is paused (read-only).

Live Map, sharing off
With no one sharing, the map says so. Safe places and geofence zones still show.

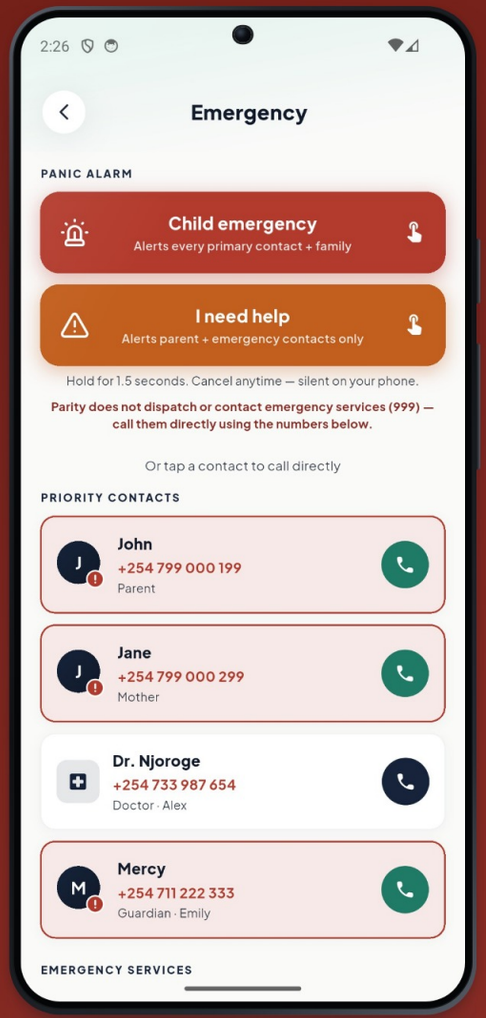

Video check-in
Calls run through FaceTime or WhatsApp on your own phone. Parity never hosts or records the video.

Parent

"Notify family contacts", with priority contacts one tap away.

Caregiver

Two alarms: "Child emergency" and "I need help".

SOS

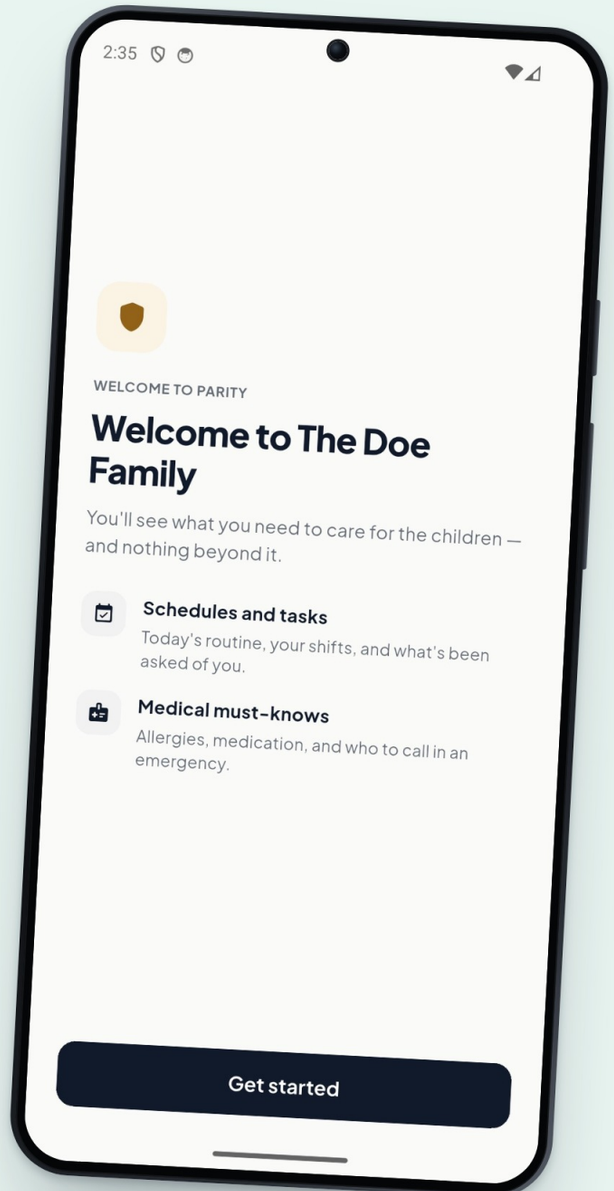

07 Hold for 1.5 seconds. Your household is alerted.

When something goes wrong, the adult with your child should not be searching a group chat. One press-and-hold alerts your household.

- **On every caregiver's home screen.**
- **Two levels for caregivers.** "Child emergency" alerts every primary contact and family. "I need help" alerts the parent and emergency contacts only.
- **Never behind a paywall,** never behind a plan limit, never switched off.
- **Clear about its limits.** Parity does not contact emergency services. The screen says so and puts the numbers one tap away.

“You'll see what you need to care for the children — and nothing beyond it.”

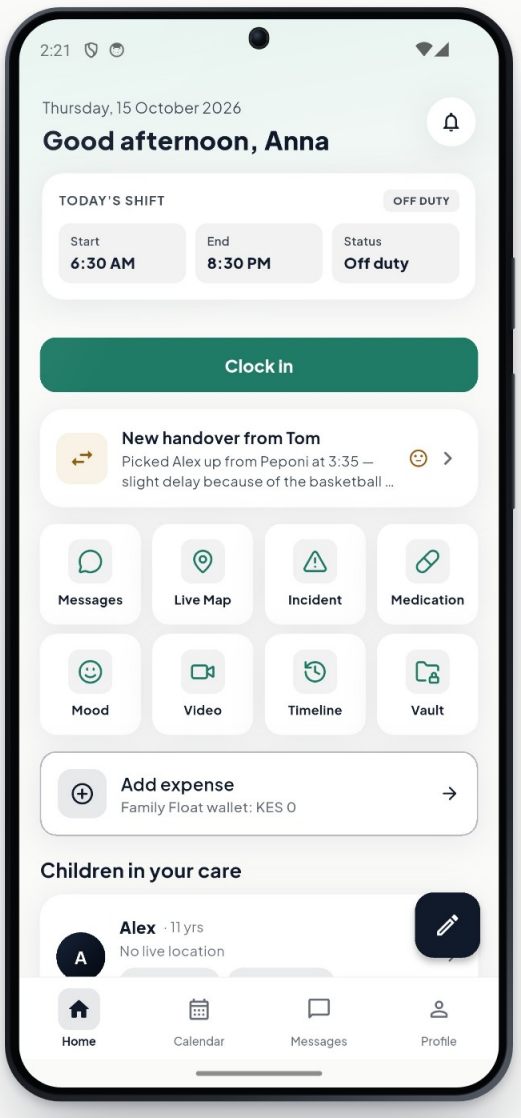

THE FIRST THING PARITY TELLS A NEW CAREGIVER

FOR NANNIES AND CAREGIVERS

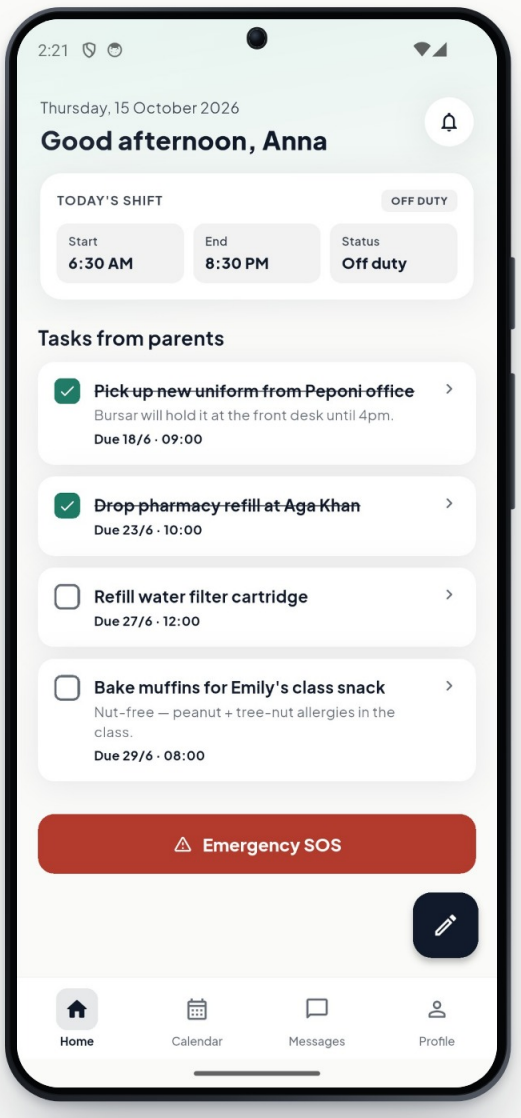

08 A tool built for your job. Not a seat in the parents' group chat.

You open Parity and see your shift, the children in your care and the tasks the parents have set. Your hours, your leave and your expenses are on record too, which protects you as much as the family.

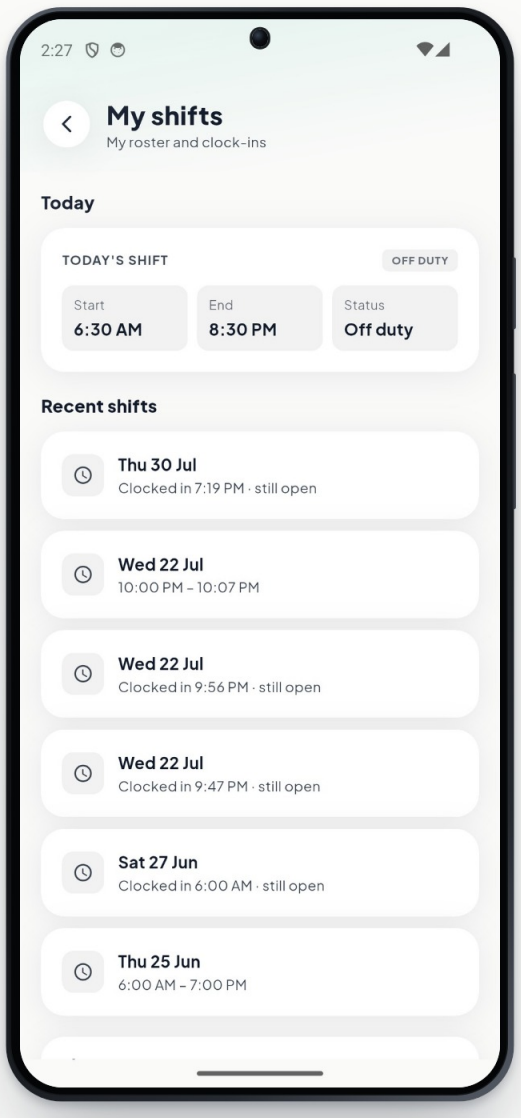

Home

Today's shift, Clock in, the latest handover, your shortcuts and Add expense.

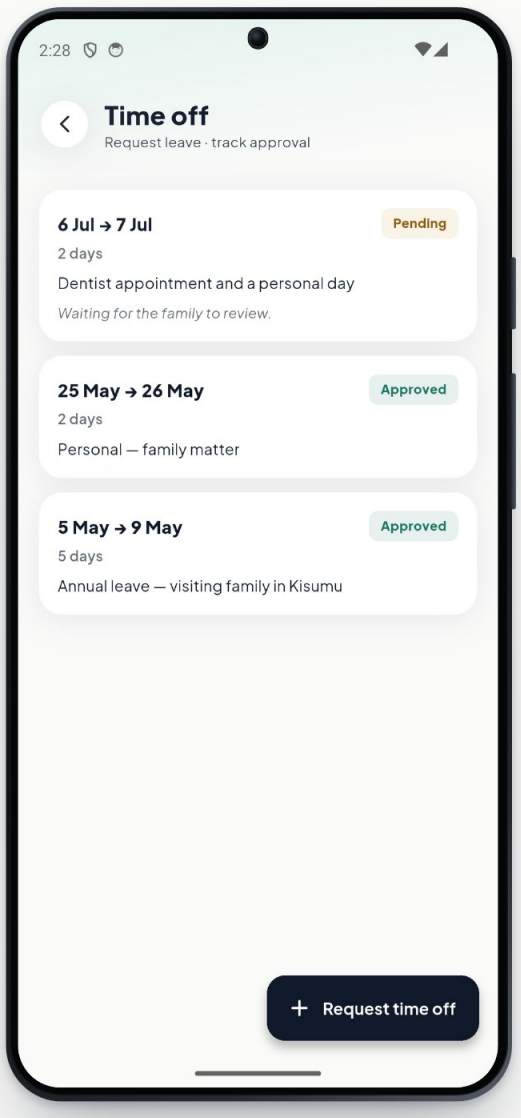

Tasks from parents

Tick them off as you go. Emergency SOS sits below the list.

My shifts

Today's shift and your recent clock-ins.

Time off

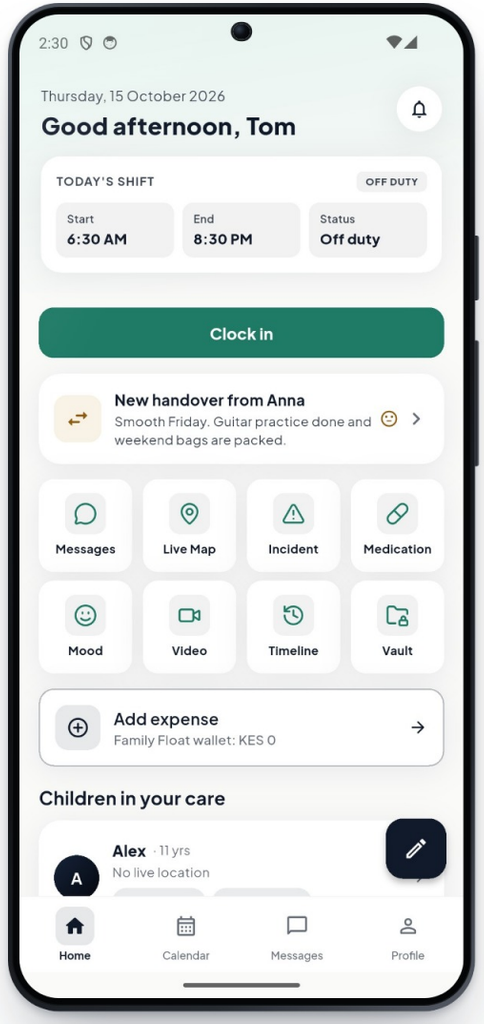

Request leave in the app and see what is pending or approved.

FOR DRIVERS

09 The run, the pick-ups, and nothing you do not need.

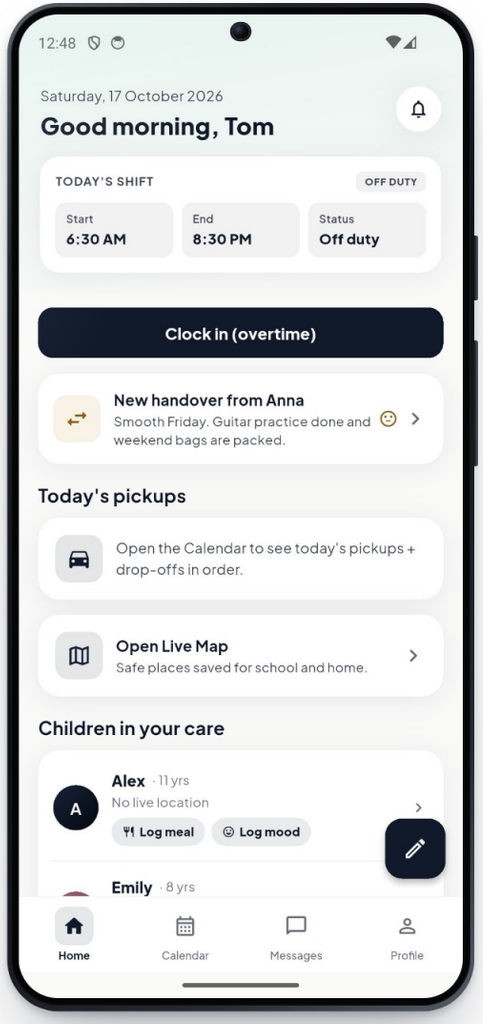

The same clear home screen, shaped for a driver: your shift, the handover from the caregiver, today's pick-ups and the safe places saved for school and home.

- **Your shift and Clock in** at the top of the screen.
- **The handover from the caregiver** before you set off.
- **Today's pick-ups and drop-offs,** in order, from the calendar.
- **The Live Map** of safe places saved for school and home.
- **Location shared only during duty hours.** Your tasks and Emergency SOS are shown in section 01.

Driver Home

Shift, Clock in, the handover from Anna and shortcuts.

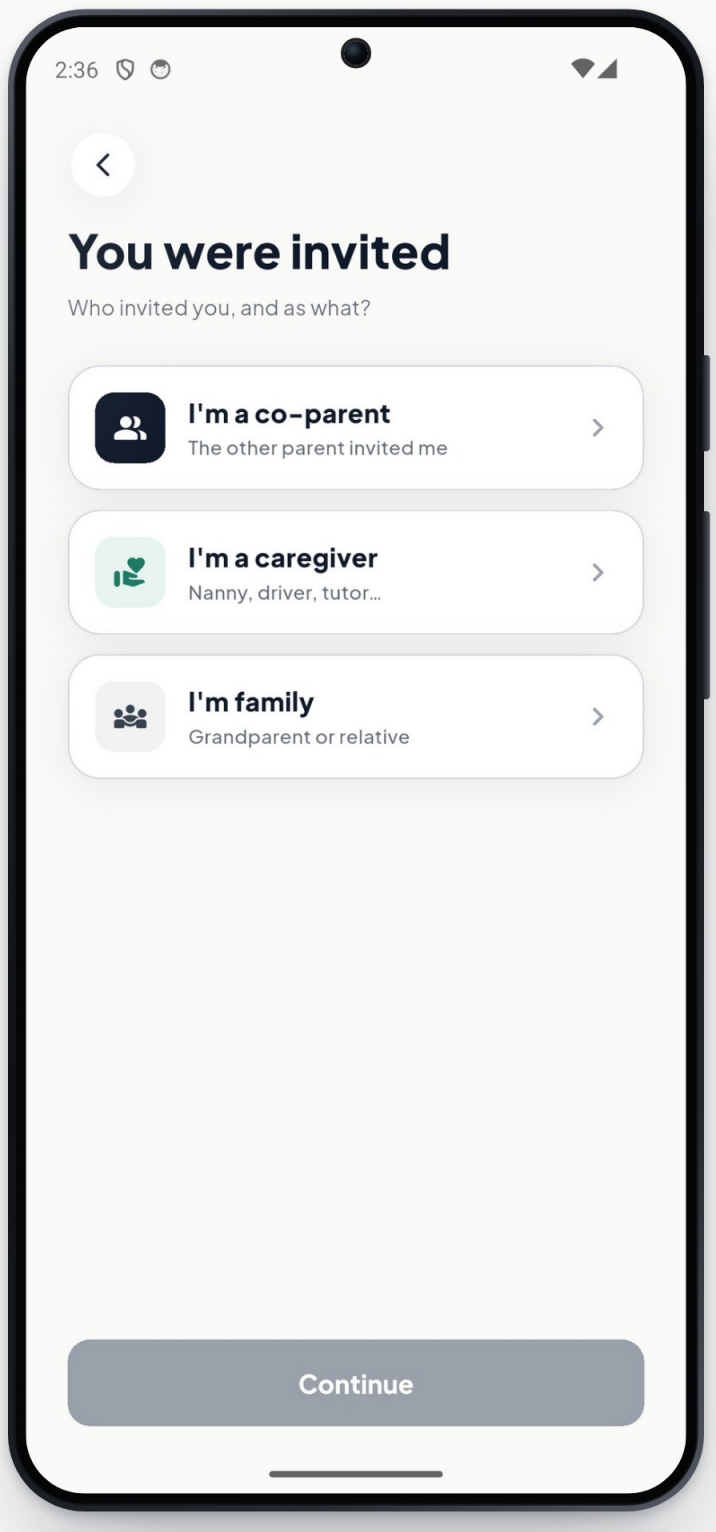

Today's pick-ups

A link to the day's runs in the calendar, and to the Live Map.

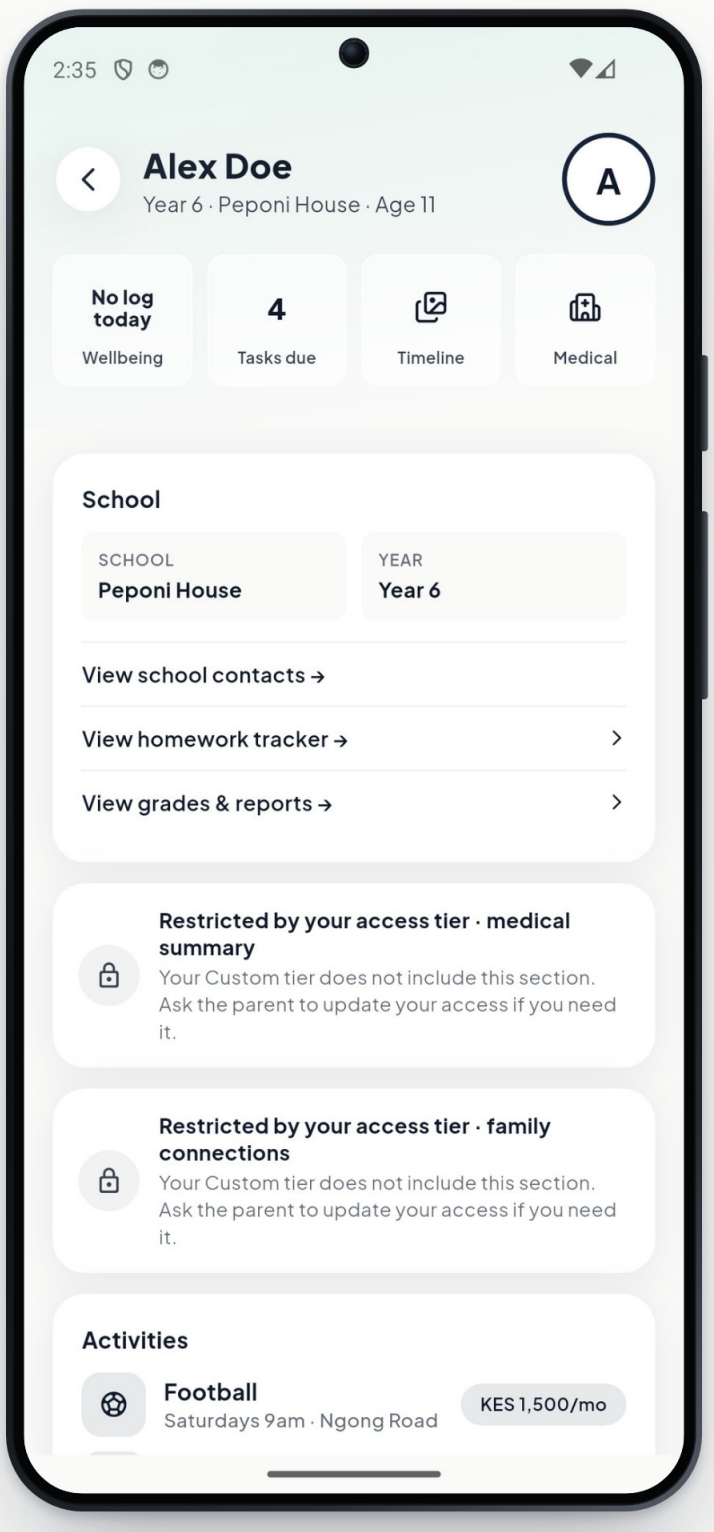

FOR GRANDPARENTS, FAMILY AND FRIENDS

10 Close to the children. Free of the admin.

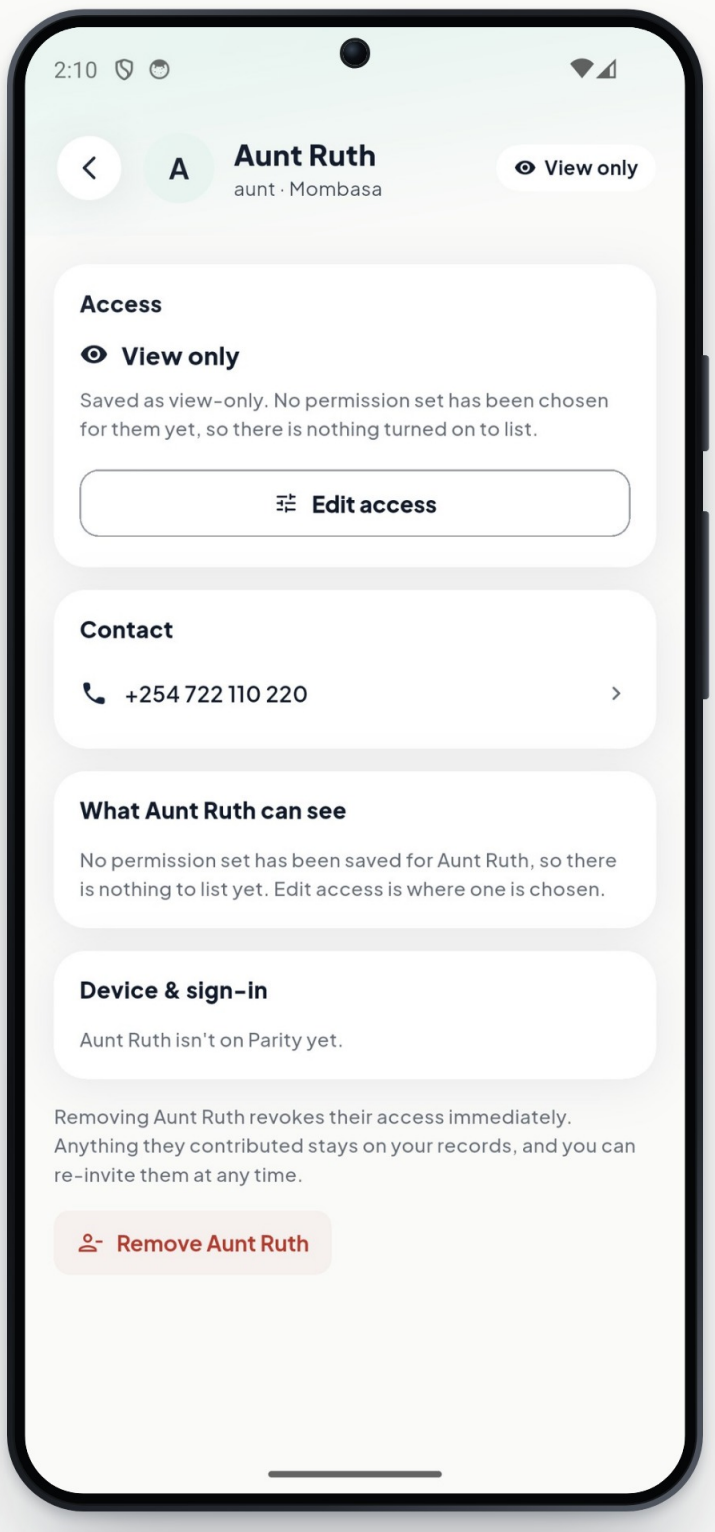

Grandparents, aunts and uncles join with their own, lighter access. You decide what each of them can see, and you can change it at any time.

Joining as family
A grandparent or relative picks "I'm family" from their invite.

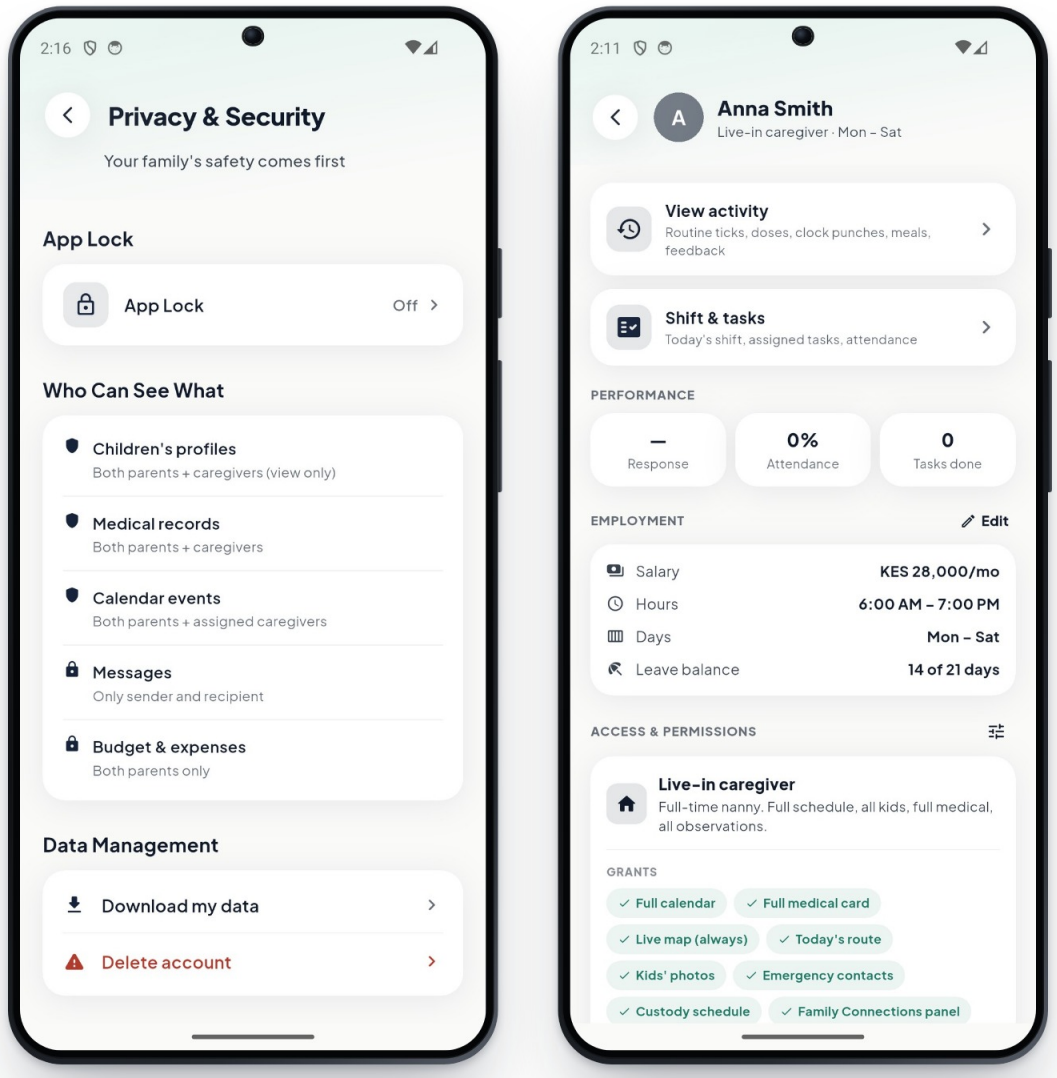

A lighter view
School details are visible. The medical summary is outside this access tier, and the screen says to ask the parent.

Set by you
Aunt Ruth is view-only. "Edit access" and "Remove" are on her page.

Playdates and Family Connect: two households connect with an 8-character code or a weparity.com/c/… link. Connected families see only first names, area, and children's first names and ages. A playdate host receives a time-boxed view of the child's essentials, and access ends when the playdate does.

Who can see what

Profiles, medical records, calendar, messages and budget, each with its audience.

Access per caregiver

Anna's role, employment terms and exact grants, from full calendar to emergency contacts.

WHO SEES WHAT

11 Six roles. Enforced on the server.

What a role cannot see is never sent to that phone. It is not simply hidden in the app.

Parent	The whole household, and full control of who sees what.
Co-parent	Equal standing, including across two homes.
Nanny / caregiver	A clear daily list, handovers and SOS. No parent-only information.
Driver	Pick-ups, drop-offs and the day's route. Location during duty hours only.
Extended family	Who is on duty, the day's highlights, the ability to help.
Playdate host	Only the essentials, for the hours the child is with them.

GETTING STARTED

12 Your nanny joins in under two minutes. No email, no card.

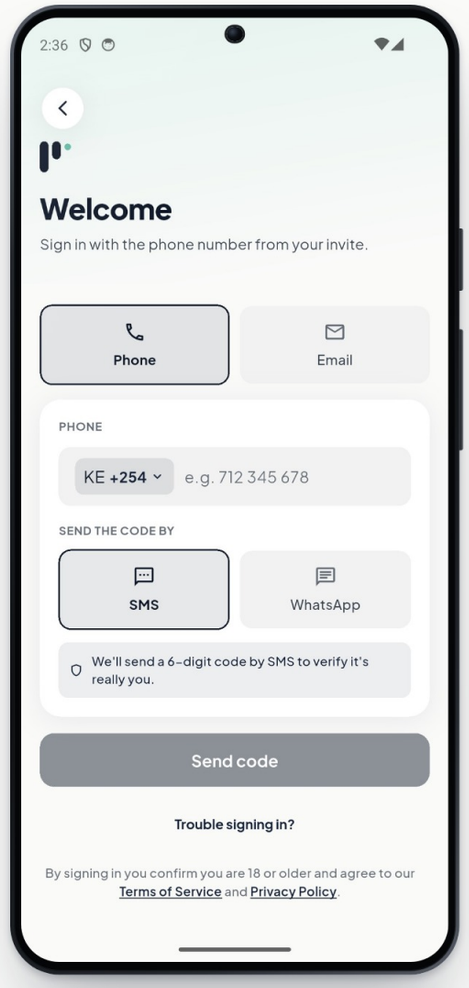

01 Install Parity
From Google Play or the App Store.

02 Create your household
Add your children's details.

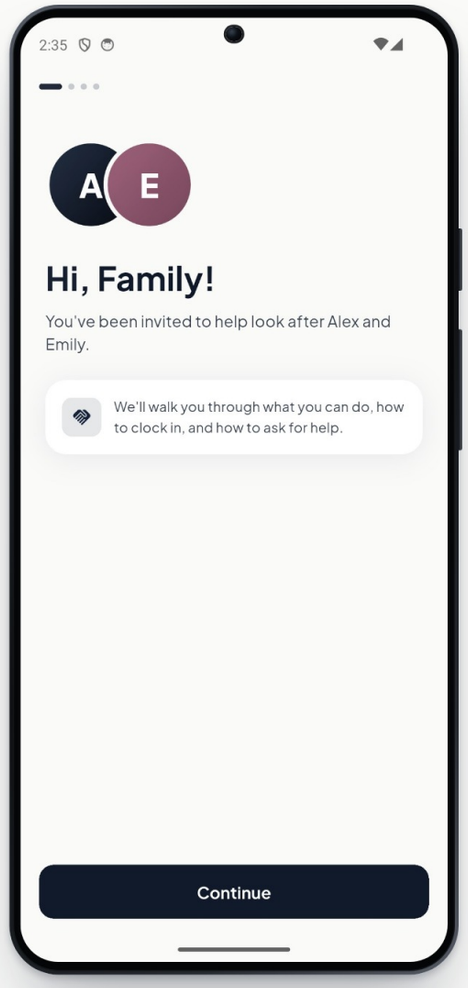

03 Invite your adults
Your co-parent and caregivers, by phone number.

04 Set today
Today's tasks and who is on duty.

05 Start your trial
14 days of Pro, free, whenever you are ready for Live Map and School mail.

Sign in with the invited number
A 6-digit code arrives by SMS or WhatsApp.

A short walk-through
What they can do, how to clock in, and how to ask for help.

TRUST, PRIVACY AND SAFETY

13 Retention you can quote.

Your household's information is about your children. We keep little, we keep it briefly, and we say exactly how long.

7 days

Location samples, then deleted.

60 days

School mail, then deleted automatically.

30 days

To purge a deleted account. Full data export is in the app.

- **Children are data subjects, not users.** Parity holds only what adults enter about a child, for the purpose of caring for that child.
- **Kenya Data Protection Act compliant.** A complaint route to the Office of the Data Protection Commissioner is in our Privacy Policy.
- **No surprise notifications.** Push and messaging are enabled per household, by the parents.
- **Languages and accessibility.** English today; Swahili, French and Arabic (right-to-left) are planned for Q1 2027. Designed to WCAG AA colour contrast in light and dark modes.

Terms of Service and Privacy Policy, effective 8 November 2026, at weparity.com.

PLANS AND PRICING · KENYA

14 Free to start. Pay as your household grows.

Every household begins on Essential. Try any Pro plan free for 14 days, with no card, once per household.

	Essential	Family Pro 1	Family Pro 2	Family Pro 3
Monthly	**Free**	**KES 1,500**	**KES 2,500**	**KES 3,200**
Annual	—	KES 15,000	KES 25,000	KES 32,000
Children	1	1	2	3 or more
Parents	2	2	2	2
Caregivers included	1	3	4	6
Tasks	5 active per day	Unlimited	Unlimited	Unlimited
Vault	5 items	Unlimited	Unlimited	Unlimited
Playdates	2 per week	Unlimited	Unlimited	Unlimited
Live Map	Paused (read-only)	Included	Included	Included
School mail	Paused (read-only)	Included	Included	Included
SOS	Always	Always	Always	Always

Caregiver seats

Pro 1 includes 3 caregivers, Pro 2 includes 4 and Pro 3 includes 6. Each extra caregiver or extended-family seat is KES 200 per month.

Downgrading is safe

45 days' grace and nothing is deleted. Items beyond the Essential limits become read-only until you choose what stays active.

How to pay

M-Pesa or card on Google Play, or through the App Store on iPhone. Prices in other countries will be published at launch in each market.

FOR SCHOOLS, AGENCIES AND EMPLOYERS · DRAFT

15 Reach every adult in a household at once.

The partner programme is planned and not yet available. Contact support@weparity.com.

Schools

Offer Parity to your parent community: one channel that reaches the driver, the nanny and both parents, fewer missed circulars, and auditable pick-up permissions.

Pricing to be defined

Caregiver placement agencies

Place caregivers into households that already run on Parity: clear duties, attested handovers, and a record both employer and employee can rely on.

Pricing to be defined

Employers

A family-coordination benefit for staff with children and caregivers.

To be defined

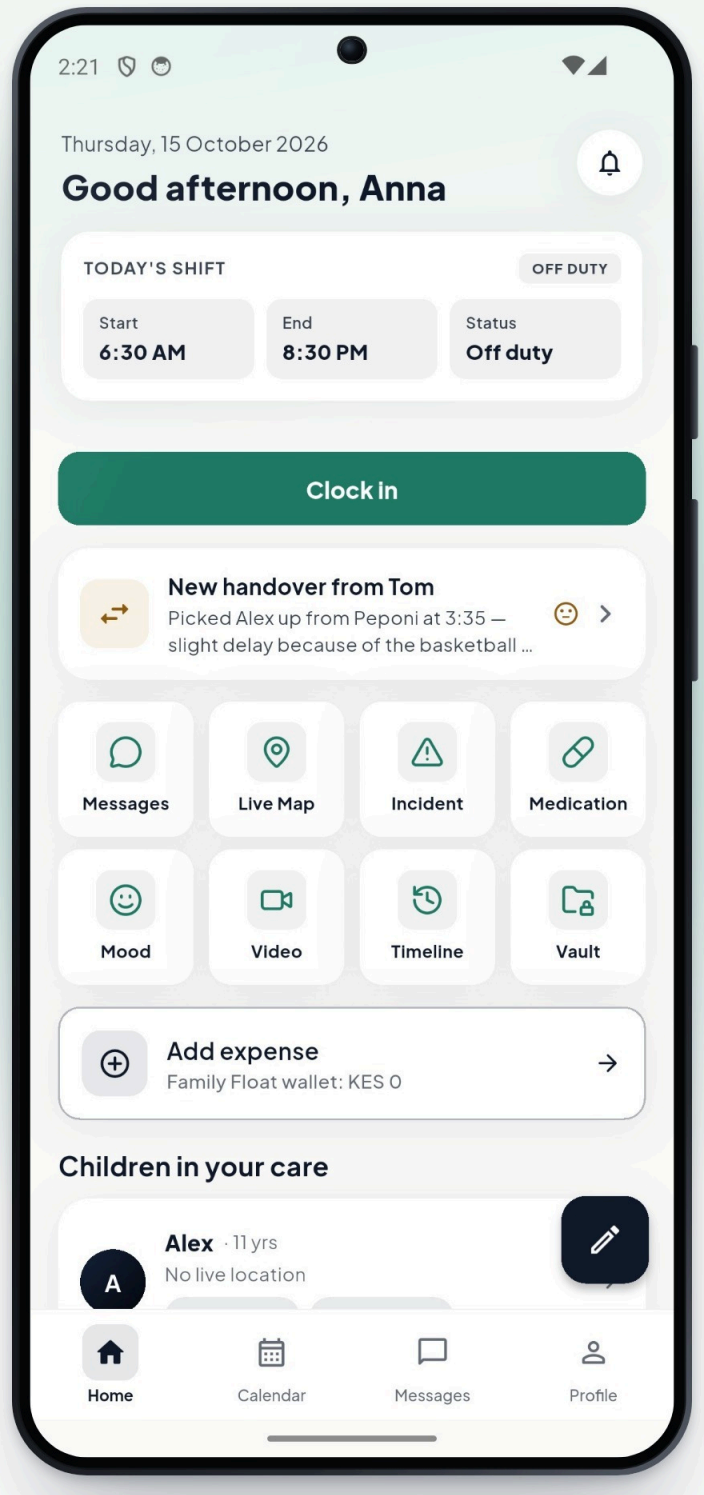

START TONIGHT

Tomorrow can run differently.

Tonight	Install Parity and add your children.
Before breakfast	Invite your nanny and driver by phone number.
For 14 days	Try every Pro feature free, with no card.

AVAILABLE ON **Google Play**

AVAILABLE ON THE **App Store**

PARITY
